## SUMMARY

Having a background in graphic design and marketing I always liked the idea of bringing life to static designs. I seek an opportunity as a junior web developer as my passion for design gives me the opportunity to work from the design to the implementation and create an enjoyable and smooth user experience.

## PROJECTS

### Interview Scheduler

A single page web app that the user can create, edit and delete interview appointments (React, HTML, CSS, Axios, PostgreSQL, Jest, Cypress, Storybook)

### Wiki Maps

A web app that allows users to create and browse maps with a list of favorite points (EJS, jQuery, SASS, NodeJS, Express, Javascript, PostgreSQL)

### Tweeter

Single-page responsive Twitter clone (HTML, CSS, Javascript, AJAX, Node, Express, MongoDB)

## SKILLS

**Programming Languages:** Javascript, HTML, CSS, SASS, Ruby.

**Spoken Languages:** English, German, Spanish.

**Adobe Creative Cloud:** Illustrator, Photoshop, InDesign, XD, After Effects and Premiere Pro.

**Frameworks, Libraries and Environments:** NodeJS, ReactJS, Rails, Ajax, Express, EJS, JQuery.

**Systems, CMS and Databases:** Git, SQL, PostgreSQL, Wordpress.

**Testing:** Cypress, Mocha/Chai, Storybook, Jest.
